About Me

Results-driven Information Technology student at University of Baguio with a strong foundation in project management, business analysis, software testing, and web development. A consistent Dean's Lister, certified in Software Testing and Automation, Azure DevOps, and Python Automation. Adept at strategic planning, risk assessment, and stakeholder engagement, with a passion for process improvement and data-driven decision-making. Seeking an opportunity in project management, business analysis, quality assurance, or software development to apply technical expertise and leadership skills.
